## SIMONSIDE 2000

Daniel Wood was determined to put his victory beyond doubt with over a minute up on his nearest rival, in fact he was ahead of a whole raft of excellent previous winners. Neil Dunn pointed out my faulty memory and that he had been a previous local to win the race. In fact Neil introduced Daniel, with a practice, to the route last year. Daniel had his eye on firmly on first place. It was not to be, but this year he left no doubt. The show ground exploded with delight and Daniel joins the ranks of local hero. Daniel as might be expected is a shepherd and I heard a recent comment that his dogs have a job keeping up with him!

Not only was it really soggy this year but all the rain during the summer had made the heather very long. Given these conditions it is a surprise that the times were as good as they were. There was an elite group that tussled it out from start to finish making it really competitive. Morgan Donnelly set the pace and was first to the summit with Daniel on his heels. In third place was last years winner John Larkin. By Little Church Daniel was in the lead which he maintained until the end.

It is great to see that all those runners that took up fell running in the early 80's are still at it and also great that we have growing numbers vets over 40, 50, and this year 8 over 60! Of course these guys were only 42 (including myself) when our race started. But what veterans! David Armstrong and James Dickinson were up there with the youngsters at 7th & 8th. The over 50's had their own tussle. The first four runners over 50 constantly changed place but once Rob Hall reached the summit first he ploughed down the fell to finish 17th overall. Phil Lancaster is also still very much a contender at 60 years finishing in a remarkable 28th position overall!

Alison Raw consistent as ever dominated the women and came in with a very good first place and time (29th overall). Juniors are the future top runners in the sport and Andrew Wilson and Thomas Burden had a real race of it with Andrew only taking the lead on the decent to finish well up there at 20th overall. It is also great that we had such strong under 16's with Benn Henderson and Jane Phizackerlea as winners. This is an uncompromising run for under 16's and is very much underrated to be called a fun run.

Whilst local women in the past have said they will do the race their courage has always failed them, so it was admirable that Gillian Riley was the first local ever to do the run. It was also an emotional experience for me that my daughter Anita did the race for the first time. As you may know it has been our family and friends that have managed the race and Anita and her husband Michael have always worked very hard with marshalling the results, it was Anita that set up and operated the computer system all these years. That's the way of the race we have watched marshals convert to runners. A good Millennium race and congratulations to every one of you.

See you next year, 15th September 2001, go on put it in your diary.

It is difficult to express how grateful I am to all our sponsors and helpers it is literally true that we could not do without them :-

To Northern Runner & Saucony for the record prizes, to Peter Reed, a regular runner, who has repeatedly guaranteed our prizes, to Martin Hyman sponsor and running legend, to Phil Gamble on the computer, to Michael & Graham who is always there for me, to Fred Seymour, Linda Calvert, and Sylvia Hart, and to the marshals that never see the show Alan at the Summit, Phil at Little Church, John at Gt. Tossion, Ely at the Junction, and Jonathan & Paul at the Top Road.
