A beautiful summer evening for the 27th Edition of the Beacon Hill Fell Race.
The route was amended at the request of Forestry England and thus reduced by
Approx. 0.5 mile to 6 miles. Every year the route becomes more overgrown and
there was some especially high bracken to contend with making for testing conditions
All made it safely back to the finish with smiles all round. The small field meant
everyone took home a prize, even the marshals got a reward.
Thanks to the registration team, marshals and MRT team members for their
never ending support.

Paul Appleby.
